# Preliminary Announcement

20<sup>th</sup> International Technical Conference  
on the Enhanced Safety of Vehicles (ESV)

June 18-21, 2007

You are cordially  
invited to participate in the  
20<sup>th</sup> International Technical Conference  
on the Enhanced Safety of Vehicles (ESV) in  
Lyon (France), June 18-21, 2007.

Lyon is a city full of surprises, worth discovering:  
an international metropolis in the midst of historical  
monuments!

Lyon was founded on the banks of two rivers, the Rhône  
and the Saône, and two thousands years of history have  
left their mark on the cityscape, known in the 1<sup>st</sup> century  
B.C. as Lugdunum, as it was named by the Romans.

Its rich heritage resources reflect the different eras and  
tell the story of the city, from Gallo-Roman remains  
to modern architecture, heading to the future, not  
forgetting Romanesque and Gothic buildings.

In the kingdom of good taste, Lyon's cuisine reigns  
above all others, a reference in culinary art, owned  
to the quality and wide variety of regional products  
and wine.

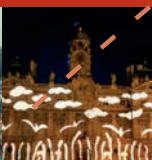

We have chosen to hold the conference in the  
most modern convention center of the city, sur-  
rounded by nature, the Rhône river on one side,  
and the Tête d'Or Park ("Golden Head Park") on  
the other. With its 117 hectares, the Tête d'Or  
Park is the largest urban park in France, offer-  
ing a botanical garden and magnificent  
rose gardens.

We look forward to your participa-  
tion, and enjoyment of a city  
so rich in culture and  
history.
